Dear Allen, Greetings from the UK! I wanted to express my gratitude for providing such a fantastic resource. The dedication and expertise that have gone into creating the Woodshed Program are truly evident. I initially started learning classical guitar about a year ago under the guidance of a teacher, but due to an inability to commit to regular weekly sessions, I found myself in need of an alternative solution. The Woodshed Program perfectly met my requirements. The site's intuitive design and structure made it easy for me to navigate, and I've taken your advice by starting from the beginning while continuing to work on some of the pieces I was already studying. It's clear that these early technical studies will greatly benefit me. Even at an early stage in my learning journey, there were noticeable gaps in my knowledge. Once again, thank you for creating this program and providing such valuable guidance. Best regards, Rodger Paylor
